

Acuity Brands

Acuity Academy

Acuity Academy

Where you can experience educational resources straight from your desk 24/7/365

What is Acuity Academy?

Acuity Academy is our new learning management system built exclusively for individuals wanting to expand their lighting and controls knowledge straight from their desk.

Why Acuity Academy?

Acuity Academy is a single system that houses all of Acuity Brands technical training resources. Whether you are looking to enroll in instructor-led training, take an eLearning course or watch live & recorded webinars, Acuity Academy is accessible 24/7/365.

What now? How do I access Acuity Academy?

Visit the Training & Education page on AcuityBrands.com, navigate to Acuity Academy to register or log into your personal account and then take a look around and feel free to share any questions or comments by emailing learning@acuitybrands.com.

Educational content and delivery modes for almost every need:

Enroll in Instructor-Led Training

In person trainings are offered both offsite (field training) and onsite at one of our regionally-located Centers for Light & Space.

Take eLearning Courses

Experience self-paced lighting and controls courses without leaving your desk. Many courses qualify for Continuing Education Units (CEUs).

Participate in Live Webinars

Live, interactive trainings from Acuity Brands subject-matter experts online and without leaving your office.

Watch Videos & Recorded Content

View content that includes: industry knowhow, product updates and much more.

Acuity Brands® Training & Education is responsible for providing educational resources to individuals wanting to expand their lighting and controls technical knowledge. As a North American market leader, our comprehensive portfolio and commitment to a sustainable future, enables us to educate the industry on rapidly growing market opportunities.

Our educational offering consists of a variety of programs focusing on:

- Lighting & controls integrated solutions
- Vertical market applications
- Cutting edge technology & trends
- Industry codes and regulations
- Continuing Education Units
- Custom content
