

RELOC[®] HCF

For Health Care Facilities

Reduce, Reuse, Recycle . . . RELOC[®]

RELOC products are a greener solution than traditional wiring. RELOC products minimize installation time and construction waste while maximizing productivity, reusability and the use of recycled materials.

Please visit www.acuitybrandslighting.com/sustainability for more information.

With RELOC® HCF, you can now extend the RELOC savings you have enjoyed in schools, offices, warehouses, manufacturing and retail into your health care installations. RELOC HCF features a redundant ground required for patient care areas with the same quality and reliability you have come to expect from RELOC.

APPLICATIONS

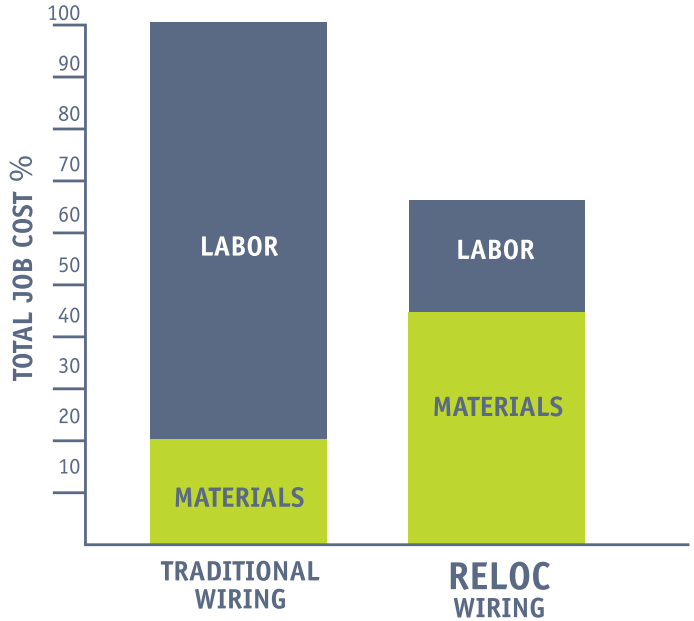

Lighting and power wiring in health care facilities such as:

- Hospitals
- Nursing Homes
- Limited Care Facilities
- Clinics
- Medical and Dental Offices
- Ambulatory Care Centers

FEATURES

- Redundant ground paths for patient care areas in health care facilities per NEC 517.13(A) & (B)
- Green ground wire for connection to the fixture is standard with HCF
- Easy-to-identify lightweight green armor

RELOC® wiring offers the lowest total job cost compared to traditional wiring methods.

All products are UL Listed, C-UL Listed or CSA Certified.

| ORDERING INFORMATION | Ordering is easy - simply add HCF to the end of existing RELOC model numbers. | |
