

nLight® AIR

Simplified Wireless Lighting Controls

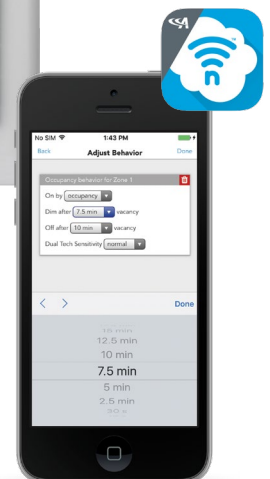

nLight® AIR is a simple wireless lighting control solution complete with Acuity Brands® LED fixtures with embedded smart sensor and wireless nLight® AIR wall switches. nLight® AIR allows you to confidently and quickly finish the job and move on to the next one with an easy to install wireless lighting control solution – fewer devices, no wires! A perfect solution for renovations where running wires can be time consuming.

Start-up is streamlined with the CLAIRITY app. The app pairs nLight® AIR devices and customizes sensor settings for occupant comfort while aiding in energy code compliance.

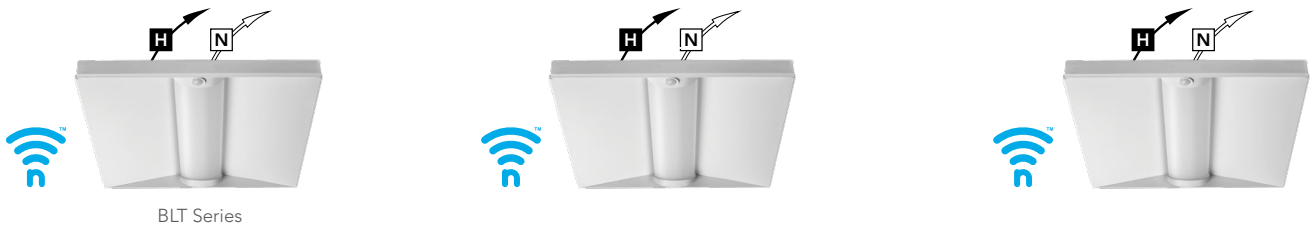

Benefits

- Easier installation with fixture embedded smart sensor, removing the guesswork, saving time and money
- Save energy with occupancy and daylight sensing—up to 30% additional energy savings
- Industry leading 5-tier wireless security architecture
- Aids in meeting and/or exceeding state and local energy codes for renovation projects
- A scalable, upgradeable smart building ready solution
- Choose from wide range of nLight AIR wireless enabled fixtures (Lithonia Lighting® BLT, WL, VTL and Peerless® Bruno with more to follow)

CLAIRITY Mobile App for Easy System Start-up

- Intuitive mobile app for simplified zoning and sensor setting changes
- App provides visual feedback to confirm changes to settings
- Secure wireless system is enabled with user verification to keep your information safe
- CLAIRITY is compatible with iOS7+, Google Android KitKat+ and associated devices
- Automatically recognizes fixtures with wireless capability
- Easily identify fixtures through blink feature
- Pair fixtures with wireless wall switches and create various sequences of operation
- Group and name fixtures, i.e., Room 120
- Cloud connected, saves all zoning and configuration settings in a space

Simple as 1,2,3

1. Install the nLight® AIR fixtures with embedded smart sensor
2. Install the wireless battery-powered wall switch
3. With our CLAIRITY app, pair the fixtures with the wall switch and if desired, customize the sensor settings for the intended outcome

A+ Certified solutions from Acuity Brands help you quickly and confidently select and implement lighting systems, for indoor or outdoor applications, that are both compatible and consistent.
