

DESIGN2SHIP™

5-Day Quick Ship Program For Select
Architectural Brands

With 5-day shipping, time is now an ally!

Today the construction business is faster than it ever has been. Because schedules are so compressed, product choices can be limited. Acuity Brands® has the answer! Products in our Design2Ship program ship in 5 working days. With Design2Ship you can order highly configurable architectural luminaires with confidence. Less time waiting for product means more productive labor. Our speed means more predictable schedules and more profitable projects.

This program includes a comprehensive selection of product families from our architectural brands and will continue to expand over time. See reverse side for featured products.

Please visit www.acuitybrands.com/design2ship to learn about new product additions to the program, program details and to view the digital brochure.
