

FINANCING & REBATE SOLUTIONS

FROM ACUITY BRANDS®

A Smart Business Case for Intelligent Lighting

Acuity Brands is removing the biggest challenge facing customers: cost. Customers can experience the energy savings and expanded capabilities of Smart Lighting Networks with no upfront investment, and stay cash flow positive starting year one.

Together with our trusted financial partners, we are able to provide flexible financing solutions and rebate packages. This gives customers the ability to conserve cash and take advantage of the tax benefits from financing capital equipment.

- \$0 Capex
- 100% financing
- Simplified processing
- Flexible payment plans

Financing

Our partners have more than four decades of industry experience and the financial strength of more than \$10 billion in equipment financing alone.

Customers can expect professional expertise, quick approval, and simplified paperwork, to finance or lease an entire lighting project, including product and labor, for the lowest possible monthly payment.

Concerns of upfront cash outlay and fears of being trapped with obsolete lighting and controls are easily solved.

Rebate Administration

Also available to our customers, a team of specialists can create a custom package of rebates to maximize their return. And we can process the paperwork too.

For more information about our financing and rebate services, please email services@acuitybrands.com.
