SELF-TESTING AUTOMATED REPORTING

Mobile Access to Your Emergency Lighting Reports

Automatic monthly and annual testing   Access data on your mobile device   Compliance records available on demand

Life Safety Code is a requirement, not a choice! Using the STAR Mobile application with STAR Enabled Lighting makes meeting these requirements simpler than ever!

Life Safety Code (NFPA101)
Testing & Reporting Requirements

30 seconds every 30 days   90 minutes every year   Keep records for 5 years

Compliance Just Got Easier!

STAR-enabled emergency lighting equipment automatically conduct the brief monthly tests and full 90-minute annual tests, as required by code.

Test results are logged internally within the unit. On command, test data is communicated wirelessly via bluetooth technology to the STAR app on your mobile device.
