

EarthLIGHT For You: April 2023

Discover how we are empowering YOU to create sustainability in your built environment, and impacting the people in your local communities where you live, learn, work, and play. We are proud to be an industrial technology company that is sustainable by design AND in action to help you shape spaces with positive impact.

#EarthLIGHTinAction: Having Impact In a Community Near You

We're also putting a spotlight on how our agents are doing good in their communities. Make sure to check out #EarthLIGHTinAction on social media to see more details! Over 50 actions with charities and organizations selected by our agents have been highlighted since September 2022.

and Communications*

Our Community

Delivered backpacks filled with school supplies for students in The Bronx, NYC.

Provided meals to food-insecure families in Georgia with the Atlanta Community Food Bank.

Donated canned goods to support City Harvest and their mission to feed millions of New Yorkers.

Gifted LEGO Robotics programming kits to students at Centennial Elementary School in Atlanta.

Implemented a Dual Training Program with our Mexico Production Facility & the National College of Professional Technical Education.

Assembled winter care packages to distribute to those in need throughout Montreal.

Packed kits for Camp Southern Ground to support youth & veterans' programs.

Pin This: Acuity Brands & You

From community service to industry engagement and everywhere in between, relive the moments where we have had positive impact on our communities together.

Carbon & Environmental Leadership

AcuityBrands.

**Named a
2023 Clean200™
Company**

Named to the 2023 Clean200™ list by Corporate Knights & As You Sow

Our businesses develop technology that saves our customers energy and reduces their carbon emissions. We're proud to share that we've been named to the 2023 Clean200™ list by Corporate Knights & As You Sow. The Clean200™ recognizes the top 200 publicly traded companies around the world that are at the forefront of the energy transition and put sustainability at the heart of their products, services, business models and investments, helping to move the world onto a more sustainable trajectory.

**Proud Signatory of
The Climate Pledge**

**THE
CLIMATE
PLEDGE**

AcuityBrands.

Signed "The Climate Pledge" to reach net-zero carbon emissions by 2040

Positioned at the intersection of sustainability and technology, we do well by doing good. We're proud to be an official signatory of The Climate Pledge. Co-founded by Amazon and Global Optimism in 2019, The Climate Pledge is a commitment by companies to reach net-zero carbon emissions by 2040—a decade ahead of the Paris Agreement's goal of 2050.

Our Brands in the Spotlight

Relight Retrofit Kits from Lithonia Lighting® Provide Solutions for Sustainability

For renovation projects, the most cost effective and sustainable solution is a Relight Retrofit Kit from Lithonia Lighting®. Retrofitting with a Relight kit transforms an out of date fixture into a state of the art LED solution with far less waste, less fuel use, and overall much lower carbon footprint.

Try it Out for Yourself 

Take Action

On-Demand CEU: Specifying Sustainable Luminaires

This on-demand CEU course discusses the key elements of sustainability and what it means to specify the most environmentally responsible luminaires. It also dives into the lighting-related sustainability requirements of WELL Building Standard™, LEED®, and the Living Building Challenge™. Sign up for an Acuity Academy account and start learning today.

Design Tool: Turtle-Friendly Lighting

Research has shown that sea turtles are less affected by lighting within specific wavelengths. Long-wavelength lighting such as Amber LEDs are less disruptive than white light.

Resource: Lighting and Sustainable Building Certification Programs

Industry-standard building certification programs look to address the built environment, energy efficiency and now occupant health and well-being. Lighting can address many requirements in LEED® certification, WELL Building Standard™ and the Living Building Challenge™. See how lighting can address requirements in these building certifications.
