

Custom Architectural Lighting Solutions

Unique. Dramatic. Impactful. Dare to Dream Big.

There are moments and spaces in life when there are opportunities to be extraordinary — to move beyond what is standard and ordinary. When these opportunities arise, the Acuity Brands® Custom Architectural Lighting Solutions team is here to partner with you to create an original lighting solution for your space.

The creation of custom lighting requires talented designers with a passion for details, collaborative partnerships, and the craftsmen to manufacture the one of a kind lighting solution for your projects. This expertise and dedication comes from our roots in Winona and now, we offer not only custom luminaires but complete custom lighting solutions for the Winona®, Mark Architectural Lighting™, Peerless®, Healthcare Lighting® and Hydrel® brands.

- Full-service design, engineering and end-to-end project management
- State of the art manufacturing and testing capabilities
- Materials, traditional to high-tech, and refined finishing techniques
- Resources and the advanced technology of the Acuity Brands team

Custom projects, no matter what level of complexity, from pure custom to historic restoration & replication to modifications, our capabilities and experience are unparalleled in today's market.

Services

Custom Lighting

Your dream can be reality! Our design, engineering and manufacturing craftsmen are ready to skillfully balance form, scale, materials, finishes and technology to achieve your vision. Drawing from the vast capabilities of all Acuity Brands and working hand in hand as your design partner, our Custom Architectural Lighting Solutions team delivers a complete lighting solution you cannot find anywhere else.

Historic Restoration & Replication

Historic projects demand specialized skills and experience. We have the capabilities to provide restoration, replication and sympathetic reproduction luminaires integrated with the most advanced illumination technology, control devices and systems.

Modifications of Select Acuity Brands Products

Our custom expertise makes modification of standard product easy. By combining standard elements with custom modifications, you can create that special luminaire for your project while saving both time and cost.
